

Multi-Head Split Feel the Cool Breeze

Hisense
Air Conditioning

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The document provides a detailed list of items that should be tracked, such as inventory levels, accounts payable, and accounts receivable. It also outlines the procedures for recording these transactions, including the use of journals and ledgers.

The second part of the document focuses on the reconciliation process. It explains how to compare the company's records with bank statements and other external sources to identify any discrepancies. This process is crucial for detecting errors and preventing fraud. The document provides a step-by-step guide to performing a reconciliation, including how to identify and investigate any differences between the company's records and the bank's records.

The third part of the document discusses the importance of regular audits. It explains that audits are necessary to ensure that the financial records are accurate and complete. It provides a list of items that should be audited, such as cash, inventory, and accounts payable. The document also outlines the procedures for conducting an audit, including how to select the items to be audited and how to document the results of the audit.

The fourth part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The document provides a detailed list of items that should be tracked, such as inventory levels, accounts payable, and accounts receivable. It also outlines the procedures for recording these transactions, including the use of journals and ledgers.

Bring you a better environment

Multi-Head split is ideal solution when an individual indoor unit is required in each room, the system allows one outdoor unit to be connected up to a wide variety of 2,3,4,5 indoor units, including wall-mounted, low static bulkhead duct.

LINE UP - OUTDOOR UNIT

Max connected indoor units	5kw	7kw	8kw	10.5kw	12.5kw
2 IDU					
3 IDU					
4 IDU					
5 IDU					

LINE UP - INDOOR UNIT

Indoor unit	2kw	2.5kw	3.5kw	5kw	7kw
High wall J series					
Low static bulkhead unit					

★ TOP FEATURES

Reliability

- Low Voltage(176V)
- Anti-corrosive Golden Fin
- Chassis & Bolt anti-corrosion
- PCB With Insect Prevention
- Refrigerant Leakage Detection
- Intelligent Defrost

Easy Installation & Maintenance

- 1 Pa Adjustment
- RJ45 plug for DRED PCB
- Service Window
- Hi-Checker
- Pump Down
- Indoor unit show outdoor error code

Comfort

- Fast Cooling
- 4D Auto-swing
- I Feel

Design

- Float Switch
- Narrow Depth & Slim Height
- Inner High Lift Pump
- Easy Installation

Energy Saving

- Full DC Inverter
- Smart Energy Management
- ECO Mode

Convenience

- Service Window-cooling Lock
- Multiple Control Solution
- Easy Storage

Intelligence

- WiFi Control
- ConnectLife App

High Wall Indoor

Indoor unit	2kw	2.5kw	3.5kw	5kw	7kw
High wall J series					

★ TOP FEATURES

R32 Refrigerant

WiFi ConnectLife App Control

Smart Home Voice Control

4D Auto-Swing

Fast Cooling

Long distance Airflow

Energy Saving Mode

Super Quiet

I Feel Mode

Dimmer

Silver Ion Filter

24 Hours Timer

Wireless Remote Controller R2-01 comes with the unit

Wired controller YXE-C01U1(E) - Optional

WIRELESS CONNECTIVITY FOR COOL CONVENIENCE

With Wi-Fi connectivity you can control the air conditioner through the Hisense ConnectLife app. This allows you to view menus, select modes, and set temperatures from anywhere.

SILVER ION FILTER - CLEAN, SAFE AIR

Every Hisense Air Conditioning unit features a Silver Ion Filter, which is an antibacterial device that helps to keep the air free from bacteria and impurities. The filter prevents the build up of mould and is 99.99% effective in preventing E. coli, and 97.14% effective at preventing S. aureus, which is more commonly known as Staph.

QUIET MODE - PEACE, COMFORT AND QUIET

Quiet Mode allows the unit to operate silently without compromising on power output or effectiveness. The silent motor achieves superb airflow distribution while creating a cool, quiet and comfortable environment.

I FEEL - INTELLIGENCE

By pressing the "I Feel" button to achieve intelligent temperature control and best room conditions. The temperature you feel is the temperature you want.

COMFORT - FAST COOLING

Through QSD rapid inverter startup technology, compressor can reach the highest frequency in a short time and achieve fast cooling.

Bulkhead Indoor

Indoor unit	2kw	2.5kw	3.5kw	5kw	7kw
Low static bulkhead unit					

R32 Refrigerant

Smart Home Voice Control

WiFi ConnectLife App Control

Narrow Depth Design

Slim Height

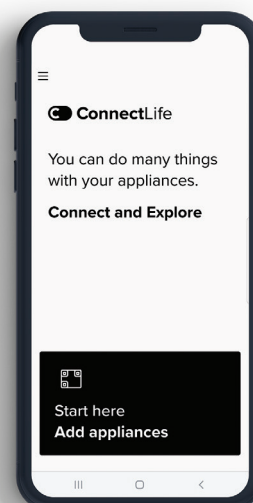

Wireless Remote Controller
R2-01 - Optional

Wired controller
YXE-C01U1(E) - Optional

WIRELESS CONNECTIVITY FOR COOL CONVENIENCE

With Wi-Fi connectivity you can control the air conditioner through the Hisense ConnectLife app. This allows you to view menus, select modes, and set temperatures from anywhere.

NARROW DEPTH & SLIM HEIGHT

Designed for narrow ceiling space, The duct unit is only with 447mm in depth, 190mm in height, which provides great flexibility and freedom for installation.

INNER HIGH LIFT PUMP

The maximum lift of Hisense high lift pump components can be as high as 850mm. In order to ensure smooth drainage in long-term operation, the recommended drainage height is ≤ 800 mm.

■ Rear Suction

■ Bottom Suction

Outdoor

Model	Capacity [KW]	Model Name	Min and Max Indoor Connections	Piping Limitation [m]
2 Indoor Connection 	Cooling 5	AMW2-52U4RJC	Min 2 ID Max 2 ID	Max Length(Each) - 20 Max Length (Total) - 30 Max Height - 15
	Heating 6			
3 Indoor Connection 	Cooling 7	AMW3-71U4RJC	Min 2 ID Max 3 ID	Max Length(Each) - 25 Max Length (Total) - 50 Max Height - 15
	Heating 8			
4 Indoor Connection 	Cooling 8	AMW3-71U4RJC	Min 2 ID Max 4 ID	Max Length(Each) - 25 Max Length (Total) - 60 Max Height - 15
	Heating 9

5 Indoor Connection 	Cooling 13	AMW5-125U4RTA	Min 2 ID Max 5 ID	Max Length(Each) - 25 Max Length (Total) - 80 Max Height - 15
	Heating 13.5			

ANTI-CORROSIVE GOLDEN FIN

The unique anti-corrosive golden fin can withstand the salty air, rain and other corrosive elements. According to the salt spray test, the level of corrosion protection is significantly 3-4 times better than normal fin. It also has better hydrophilic, higher heat exchanging efficiency and more attractive than normal fin.

1500hour of Anti-Salt Spray

Anti-corrosion fin 1500h
Normal fin 500h

High heating efficiency
High Fashion
Anti-corrosion

INTELLIGENT DEFROST

When there is frost on the outdoor unit in winter, the sensor will check the temperature difference from the ambient and heat exchanger, when the differences get bigger, normally 8-degree differences and with 2 minutes, the product comes into defrost mode, four-way valve will change to cooling mode, while indoor fan will enter anti cold flow mode, compressor high frequency operation, with around 6-12 minutes. When the coil sensor goes up, quit the defrost mode, enter heating mode.

PCB WITH INSECT PREVENTION

The structure of PCB prevents insects from entering

RELIABILITY

- REFRIGERANT LEAKAGE DETECTION

The outdoor unit will send an error code to indoor when the refrigerant leakage ratio reaches 20%. The error code will display in indoor screen for high wall unit or display in wired controller for duct unit. The control system will stop running to ensure safe operation of the air conditioner.

Easy Maintenance and Installation

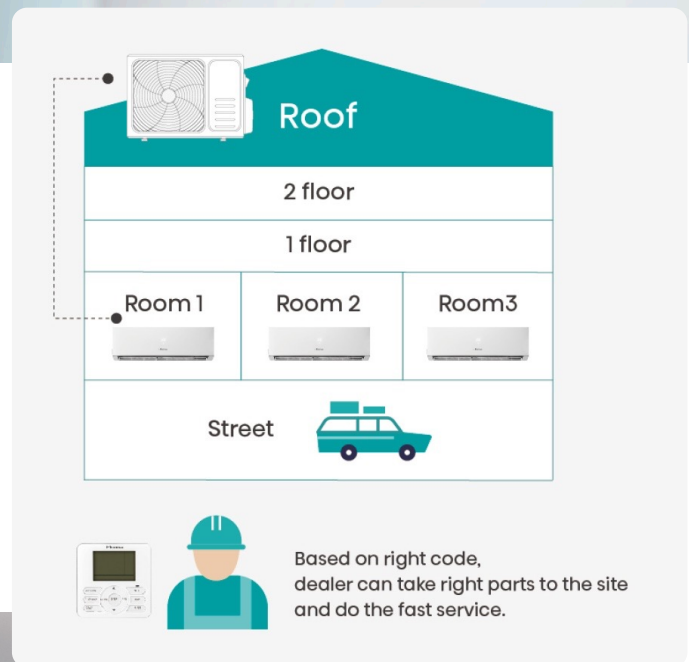

HI-CHECKER

The AC can connect to Hi-Checker to monitor the product parameters, including discharge temperature, indoor coli temperature, outdoor coli temperature, etc.

INDOOR UNIT SHOW OUTDOOR ERROR CODE

All the outdoor unit detailed error code can be displayed on the indoor unit screen or wired controller, this function fasts the service speed for the dealer.

PUMP DOWN

Refrigerant easy recovering with only ONE-KEY

Controllers

REMOTE CONTROLLER R2-01

Features

- 24 Hours Timer
- Fan Speed Selection Super Mode
- Eco Mode
- Smart Mode
- Quiet Mode
- 4D Swing
- Dimmer Function

WIRED CONTROLLER YXE-C01U1(E)

Features

- Weekly Timer
- 5 Modes selections
- Error Code display
- Filter Cleaning Reminder
- Dimmer

Dimensions: 120mm x 120mm

Backlit LCD wired controller with ideal large size and easy to read.
